

User Stories

- 1- As an admin, I should be able to create students with their profiles so that I can register students in my system.
2. As an admin, I should be able to edit all info of the students profile so that I can correct any wrong input.
3. As an admin, I should be able to disable an existing student so that I don't see dropout students.
4. As an admin, I should be able to view a list of students filtered by class and section so that I can pick from them easily.
5. As an admin, I should be able to assign specific number of students to a section so that I don't get over the limit.
6. As an admin, I should be able to create a class so that I can group the sections.
7. As an admin, I should be able to edit all info of the classes so that I can correct any wrong input.
8. As an admin, I should be able to delete an existing class so that I can get rid of unwanted classes.

9. As an admin, I should be able to view all classes so that I can pick from them.

10. As an admin, I should be able to assign a section to a class so that I add sections to classes.

11. As an admin, I should be able to disable an existing section.

12. As an admin, I should be able to view all sections so that I can pick from them.

13. As an admin, I should be able to fill the attendance sheet of every section per student per date with 3 possible entries: Present, Late, and Absent so that I can measure the commitment.

14. As an admin, I should be able to search for a student by their name in the attendance sheet so that I can check their attendance.

15. As an admin, I should be able to generate attendance reports so I can get a clearer view over the attendance.

16. As an admin, I should be able to have an individual report of students' attendance records that contain the number of absences, presents, and lateness using graphs or charts so that I can get clearer view on individual attendance.

17. As an admin, I should be able to have an individual report of class's attendance records that contain the number of absences, presents, and lateness using graphs or charts so that I can get a clearer view on overall attendance.

18. As an admin, I should be able to create an admin that will have an access to change anything and sign in so that I can have more than one admin.

19. As an admin, I should be able to edit admins so that I can edit any wrong input.

20. As an admin, I should be able to disable admins but myself so that I can lock away unneeded admins.
